National Apprenticeship Week 2017

It's back! This week marks the 10th annual National Apprenticeship Week. #NAW2017 returns to celebrate all of our apprentices and the contribution they make!

There has never been a better time to employ an apprentice. According to the National Apprenticeship Service, "qualified apprentices are 15% more employable than those with other qualifications."

The infographic features a blue speech bubble on the left containing the text: **'7 out of 10 apprentices complete their scheme and continue to work for the same employer, with around a quarter being promoted within a year!'** To the right of the speech bubble are two stylized human figures in blue. Further right is the logo for National Apprenticeship Week, which includes a sunburst icon, a banner that says "10th ANNIVERSARY", and the text "Apprenticeships National Apprenticeship Week 6-10 March 2017". To the right of the logo, the text reads: **30 apprentices working across 12 sites within BYES.**

At Bouygues Energies & Services, we recognise the importance of investing in our people and giving them the best possible chance of developing their skills and as such, apprentices can follow a range of different routes, from Plumbing and M&E, to Business Administration and Horticulture.

This week we are highlighting some great achievements by our apprentices at all different stages of their career, from new starters to those who have moved into permanent roles.

It is also a great opportunity to find out more about the role of apprentice mentors, what it takes to support an apprentice and make sure they get the most out of the scheme, as well as add value to their team.
